

Transform Student Learning with Live Butterflies

There is no better way to study life cycles than observing the complete metamorphosis of live butterflies. Provide your students with this extraordinary experience for a lesson they will never forget. To ensure you get the butterfly larvae you want, when you want it, please use our shipping schedule below for ordering deadlines.

- Butterfly larvae take between 14–26 days to complete their life cycle.
- Approximately 70% (or 23 out of 30) of your larvae should survive and grow into adult butterflies.
- Larvae must be shipped by air to ensure live arrival. Shipping charges will be applied and will depend on your location and how many sets you have ordered.
- Accessory items such as terrariums, books, and posters may be shipped separately via regular mail to save you shipping charges.

Visit wardsci.com for full product descriptions.
